About Meg: From a dairy farming family, schooled at Newhaven College & first job at the Phillip Island Nature Parks before a career in agribusiness and business banking we are now raising our boys in this same region of natural beauty. We run a small building business which focuses on sustainable & unique design and farm implementing regenerative practices.

I'm running as an alternative to the major parties who have let us down.

Labor have committed to rapid rollout thousands of 340metre high industrial wind turbines using taxpayer money close to our shores. The turbines will destroy our pristine coastal environment and negatively impact wildlife. I kindly ask for you to vote 1 Meg to send a message to the majors, for less government that is transparent and accountable.
