Nicole
SEYMOUR

This election, more than ever, there needs to be a major shift in the balance of power, away from the major parties.

It is not in our interests to have to have a Government dominated by one political party with absolute control.

As an independent, I will not be beholden to a political party.

I will be only answerable to you.

I will ask the hard questions and fight for what's fair – and ensure that honesty and integrity comes back into our Parliament.

INDEPENDENT

Key principles Nicole stands for:

PEOPLE BEFORE POLITICS

- ✓ People have lost trust in Government. It's time to restore integrity and accountability.
- ✓ Giving power and a voice to the People - not political parties.
- ✓ Putting our Community first.
- ✓ Ensuring quality health and education services are within reach of all.

FAIR SHARE OF INVESTMENT

- ✓ We deserve regular upgrades to our schools, roads and sporting facilities with funding based on need not political pork barreling.
- ✓ Appropriate funding for routine maintenance and repairs of existing infrastructure assets such as roads, schools and community buildings must be prioritised.
- ✓ No more broken promises - real action now for public transport improvements.
- ✓ Invest in new technologies that create opportunities for jobs and improved health & wellbeing.

HONESTY & INTEGRITY FROM ELECTED REPRESENTATIVES

- ✓ Appropriate investment and strengthening of powers to Organisations such as IBAC (Independent Broad-Based Anti-Corruption Commission) & the Victorian Ombudsman to ensure they can carry out all investigations with clear and severe penalties for breaches of our trust.
- ✓ Responsible financial management of our State with transparency and independent oversight – no more empty promises, massive project cost blowouts or out of control debt. Put an end to wasteful spending and bloated bureaucracy.

ENSURING A SUSTAINABLE, SECURE FUTURE

- ✓ Common sense and measured approach to the challenges of a changing climate and global demands for cleaner, affordable, sustainable energy.
- ✓ Balanced investigations and affordable solutions for our future energy needs.
- ✓ Review of taxes and ownership of natural resources, to address rising costs and supply concerns.
