Maya's Policies

"My commitment to you is to be approachable, transparent and a voice of common sense. One that respects the rights of all individuals and their family values, and supports small business."

24 Hour Local Emergency Clinic

Staffed by local GPs, nurses & specialists to take pressure off public hospitals, & provide the community with reliable 24 hour health care.

Respect Family & Parental Rights

Supporting your family values by restoring your parental rights over your children's health care & education.

Home Renovations & Granny Flats

Easing building regulations and red tape, to reduce costs & delays when renovating your home, while free Granny flats permits will help keep your family together.

Restore IBAC Powers

Government spending & corruption are out of control. Giving IBAC the authority to refer cases to prosecution will hold politicians accountable.

Abolish School Zones

Abolishing school zones so parents can choose the best educational environment for their child, and support Independent & Micro schools.

Support for Local Business

Reducing stamp duty, abolishing payroll tax, and keeping cash in circulation to access your money whenever you need it.

Repeal the Ban on Gas

Gas is a reliable, safe, and naturally abundant energy source. With the rising cost of living, people should not have to choose between heating and eating.

Legalise Medicinal Cannabis

Legalising cannabis makes sense. Medicinal cannabis benefits people suffering from chronic disease, anxiety & terminal illness.
