MY POLICIES

My five focal points were carefully selected as prominent issues within the community and are causes close to my heart.

Environment - The Mornington Peninsula is a Biosphere reserve, a title bestowed upon the Peninsula by UNESCO. I will do everything in my power to preserve the biodiversity for the people of the Mornington Peninsula and future generations.

Small business - The backbone of the economy, employing 40% of the workforce. I will work with tourism to promote small businesses and the council to visually improve the various shopping strips. I will investigate the abolishment of 'payroll tax' for small businesses.

Health - The Nepean district relies on the Rosebud Hospital for the health requirements of the Nepean residents. I will work towards the upgrade or the relocation of the Rosebud Hospital to provide a modern hospital capable of servicing the Nepean district.

Education - The importance of education from a very young age is salient for the well-being of children in all aspects of their lives moving forward into adulthood. I will work to improve and upgrade the schools in the Nepean area where it is required, and work towards administrative roles being developed in schools to alleviate the added workload for teachers in Victoria.

Roads - Maintain and upgrade the roads on the Mornington Peninsula. I will work for the residents who live close to the freeway to have the 'Noise Monitoring Devices' reinstated, performing tests and consequently 'Noise Barriers' erected along the freeway.
