

# My plan for the

## Seat of Morwell

### Mental Health

Latrobe Valley has one of the highest rates of Mental Illness in the State. We need to provide the funding our mental health services deserve, so we can provide more services for counselling for children and adults.

### Jobs

Here in the Valley, we have more than double the national average for unemployment, this is because of the major party's failure to deliver for us. If I am elected, I want to fight for us to have a New Industry Employment Commission set into law. The Commission would set goals and have to deliver against those goals. This commission is held accountable by Parliament to deliver new Industry and jobs into our area.

### Timber Industry

The government has failed us and the timber industry. Under their watch we have seen the industry decimated and shut down, putting hundreds out of work. Recently a court injunction saw the timber industry halted and will put locals out of work and no supply to the mill. I want to see us using local paper that has been sustainably harvested and I will fight for the timber industry.

### The Valley

We need to have a say with what happens in and with our Valley. Too long have decisions about our future have been taken in Melbourne by all Parties, ENOUGH. Our Valley, our say! I will be voting for Greg Hansford in the Upper House, a true local that has been an advocate for the Valley. We have powered and watered the State for 100 years and what have we got back? I want to make sure the Valley is listened to.

An independent who  
will fight for the Valley

Your vote means  
your preference.

On the day this is how I will be voting, I have made my decision by looking at the policies of my fellow candidates and who I think would best represent the Seat of Morwell.
