

Traffic congestion benefits no one — it affects our health, pollutes the environment, and it's costly.

The population of Victoria is expected to reach 11.2 million by 2056.* Therefore, we need better and more sustainable infrastructure, not mega roads and tolls.

VOTE FOR MORE RAIL, NOT ROADS.

A little bit about me

My late husband, Tonu and I have lived in the Warrandyte district since 1966, and we raised four children here. My passion for better transport for our area led me to join Manningham Council's Doncaster Rail Advocacy Committee in 2010, where I gained a deeper understanding of the issues.

I want to protect our trees, wetlands and the habitat for our native animals. I want a better transport solution for future generations. More roads are not the solution — they only lead to more cars, traffic congestion and pollution.

More rail is THE answer. At this election, you can send a clear message that we want, at the very least and as a starting point, rail to Doncaster that was promised over 100 years ago. Did you know that Doncaster Rail would have taken 600 cars off the Eastern Freeway, every 10 minutes, every trip?

We deserve better. We want More Rail, Not Roads. Thank you for your support.

MORE RAIL, NOT ROADS
