

WHY VOTE FOR ANTHONY ?

The constant theme of my working life has been a believe in social justice and striving to change people's lives for better

I'm standing for the seat of Brunswick district election on 26 November 2022.

I've lived in the Brunswick district for over 50 years . I've been actively involved in community issues, and through my work as an employment officer at the CES (Commonwealth employment service for over 22 years , and I have devoted much of my time to community work, including over 16 years as a councilor and three terms as a Mayor in the City of Moreland.

Many people over the years encourage me to take the second step and go for seat of Brunswick district as they not happy with the performance of the current member for various reasons I will mention some :

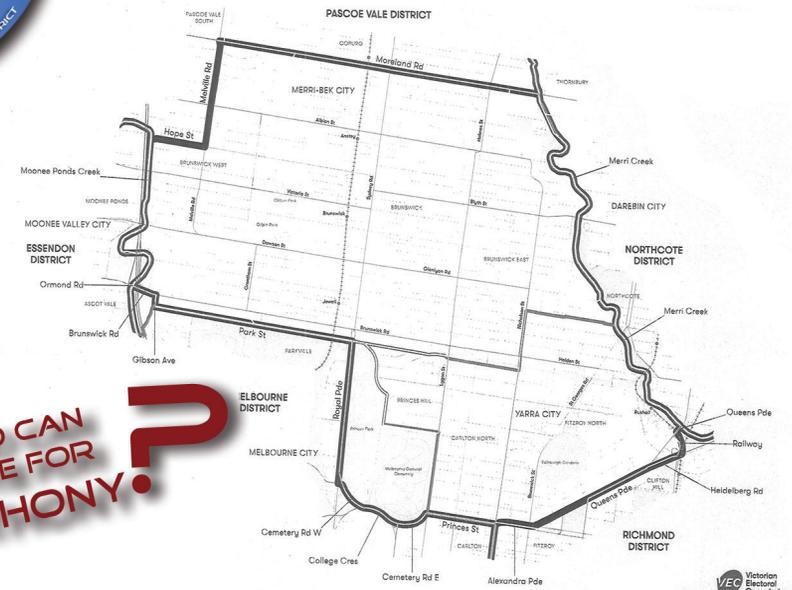

- Many attempts to remove parking from Sydney Rd (what will happen to the traders and their business)
- The name change of the city of Moreland (I believe over 85 % against the name change)
- No proper consultation with the constitutes and during the last four years I haven't seen any representatives from local council or state attending any forums or community events .
- We need competent representation in the state and effective performance in a dynamic Government. My experience and proven ability will add strength to the renewal of the parliamentarians team.
- I have never deviated from my promises for the sake of political expediency and will not be silenced when a matter needs to be raised , my loyalty and accountability will be to the residents and people of Brunswick district,
- Nothing is more important than the safety of our loved ones I will work to make our community a safer place.
- I believe that the quality of services to the elderly and families should be improved and not to be allowed to deteriorate.
- I'm an experienced representative who has proven to be accessible and responsive to resident's needs, a tireless worker ,a campaigner for the preservation of our life style .
- I have an exceptional track records on environmental issues and I will continue to do so to improve our state.

Together, we have and will continue to make a difference, please feel free to contact me with your suggestions or any questions at any time.
