

# VOTE 1 – SULLIVAN, Kym

Independent for KEW

Then number every box in order of your preference

My background: BSc, career in corporate superannuation and 15 years of Kew community involvement (library book sales, Kew Court House Appeal, a banking campaign and the Kew Community Festival).

I will advocate for:

## A moratorium on large developments in our leafy streets

Developers are amalgamating multiple blocks resulting in a significant loss of amenity for local residents. Three houses can be demolished for 27 units, well away from the main traffic corridor. A pause is needed on such amalgamations until a more balanced approach is found.

## EVs - buy the car but rent the battery

Give EV purchasers the option to rent the battery (rent conditions regulated by gov't) thereby reducing the initial outlay significantly and allowing more to afford an EV.

## Electricity Prices - more government action

A price-capping mechanism is needed now, then ongoing gov't involvement will be needed to ensure the cheapest power possible (like at off-peak times during the daytime, when an excess of supply should drive prices down).

## Boost our civic pride in Kew:

- Build more affordable housing for Kew's homeless.
- Greater protection for our civic assets (e.g. the Kew Cemetery, Library, Court House and Traffic School).
- Improve our recycling facilities (upgrade Kew Depot to receive all recyclables and open a new collection facility for the container deposit scheme).

## Help the Kew community reconnect:

- Kew Community Festival to be reinvigorated.
- Kew Court House to get a resident theatre group.

## Coercive & Controlling laws to help curb domestic violence

Authorised and printed by K Sullivan, 8/35 Walpole St, Kew.  
Registered by the Victorian Electoral Commission.
