Family First Victoria
- 9** JENKINS, Philip
- 5** TESA, Maya
- 12** LIGHTBODY, Tomas
Australian Greens
- 8** MENADUE, Alan Max

Protect your family from
the major parties' radical policies

Vote 1 Family First!

Child protection

- Protect children from harmful gender fluid ideology by removing such material from all school and early childhood curriculum.
- Ban the use of puberty blockers, crosssex hormones and “gender affirmation” surgery on minors. Freedom for families
- Restore parents’ health professionals’ and religious leaders’ freedom by repealing the Conversion and Suppression law provisions which ban helping a gender confused child.
- Restore parents’ rights. Abolish Victorian Education Department policy which requires teachers to hide a child’s gender transition from his or her parents.
- Abolish compulsory or coercive “diversity” training and participation for public servants and employees of woke corporates.
- De-fund the legal service at the Victorian Pride Centre and restrict its activities to fighting genuine discrimination, as opposed to activism against religious communities who have a different world view.
- Abolish anti-vilification and antidiscrimination laws which restrict freedom of speech and religion.
- Repeal Dan Andrews’ pandemic powers and restore the primacy of Parliament’s oversight over public health.

Women

- Introduce the successful Nordic model which criminalises men who purchase women for prostitution.
- Make it an offence to exploit a woman to produce pornography.
- Protect girls’ and women’s sport from the intrusion of biological males.

Drugs

- Close drug injecting centres.
- Divert people to programs which help them get free of their addictions.
- Enforce the law on drug supply and possession.
- Weight the criminal justice system for young people by way of compulsory attendance at rehabilitation programs, rather than prison for first offences.

Families

- Lobby National Cabinet for uniform age-verification laws to protect children from harmful content online.
- Provide a \$200 per year registration rebate for families requiring a vehicle with a seating capacity of six or more.

Economic freedom for families

- Housing affordability – release more land and reduce red tape to free up supply and lower prices.
- Energy affordability and reliability – use gas to avoid blackouts by firming electricity supply and to lower retail power prices. Unlock gas reserves by lifting bans on exploration. Keep coalfired power stations open until there are viable and affordable alternatives that provide baseload electricity.
- Increased gas supply will drive industry and jobs.
- Fight inflation – Freeing gas production and releasing land will drive down the cost of energy and housing, two major drivers of inflation.
- Debt reduction – Put Victoria on a pathway towards fiscal responsibility by tacking the \$160 billion debt. This will mean reducing the size of government and de-funding unnecessary programs.

Education

- Centre the curriculum around the basics of reading, writing and arithmetic. Restore the primacy of Western Civilisation and the Australian achievement.
- Eliminate critical race theory and gender queer theory in all aspects of the curriculum.

Poverty and justice

- Phase out poker machines by diverting revenue during the phase-out period into an industry adjustment fund.
- Gather the homeless each night into a communal shelter where they are connected to services committed to getting them off the streets.

Faith

- Restore freedom of speech and religion – repeal Equal Opportunity Act provisions which restrict churches and schools’ freedom to hire staff in accordance with an organisation’s religious ethos.
- Make it an offence to sack a person based on their religious beliefs.

Life

- Protect pain-capable unborn babies by banning late term abortions. Ban sexselection abortions. Make it a criminal offence for a man to coerce a woman to kill her unborn baby.
- Support women practically so no woman is faced with no other choice but to take the life of her unborn baby.
- Repeal Victoria’s dangerous euthanasia laws and better resource palliative care.
